Core Value/Competency	Demonstration or Evidence of competence and date (taken place within the previous six months)	Additional comments/Notes
Understanding dignity, respect and human rights	FB recognised in the case of a 45 year old lady that in spite of her capacity being limited she ensured information was provided in a way that maximised decision making	
Engaging in a positive approach	As above	
1.Understanding the definition of an adult who may be 'at risk', as defined by LLR Multi-agency Policy and Procedures 2015,Care Act 2014	FB is a CPN working with a 45 year old lady who lives alone in a one bedroom flat and has a diagnosis of chronic schizophrenic illness spanning a period of 23 years. The illness has left her with an impaired cognitive and social functioning. FB recognised that this impairment can put her at risk of abuse.	
2. Understanding the types and signs of abuse, as defined by LLR Multi-agency Policy and Procedures 2015 The Care Act 2014.	2.8.15 The service user reported to FB that a man has been coming up to her flat asking her for money for alcohol and that he has been persistent and that she has been giving him money. FB recognised that an abuse might be taking place	
2.Understanding the types and signs of abuse, as defined by LLR Multi-agency Policy and	FB identified the type of abuse and the possible criminal offence and made a decision to inform her manager and
