

**1) Child focused care giving**

**2) Adult focused care giving**

**3) Child's needs are secondary to adults'**

**4) Child's needs are not considered**

**PHYSICAL CARE: Food**

Child is provided with appropriate quality of food and drink, which is appropriate to their age and stage of development.	Child is provided with reasonable quality of food and drink and seems to receive an adequate quantity for their needs, but there is a lack of consistency in preparation and routine.	Child receives low quality food and drink, which is often not appropriate to their age and stage of development and there is a lack of preparation or routine.	Child does not receive an adequate quantity of food and is observed to be hungry.
Meals are organised and there is a routine which includes the family sometimes eating together.	Children's special dietary requirements are inconsistently met.	Child appears hungry.	The food provided is of a consistently low quality with a predominance of sugar, sweets, crisps and chips etc.
Children's special dietary requirements are always met.	Carer understands the importance of appropriate food and routine but sometimes their personal circumstances impact on ability to provide.	Children's special dietary requirements are rarely met.	Children's special dietary requirements are never met and there is a lack of routine in preparation and times when food is available.
Carer understands importance of foods.		The carer is indifferent to the importance of appropriate food for the child.	Carer hostile to advice about appropriate food and drink and the need for a routine.

**PHYSICAL CARE: Quality of Housing**

The accommodation has all essential amenities such as heating, shower, cooking facilities, adequate beds and bedding and a toilet and is in a reasonable state of repair and decoration.	The accommodation has some essential amenities, but is in need of decoration and requires repair. Carers are aware of this, and have taken steps to address these issues.	The accommodation is in a state of disrepair, carers are unmotivated to address this and the child has suffered accidents and potentially poor health as a result.	The accommodation is in a dangerous state of disrepair and this has caused a number of accidental injuries and poor health for the child.
Carer understands the importance of the	The accommodation is reasonably clean,	The look is bare and possibly unhygienic	The property is very unclean and there is a

<b>PHYSICAL CARE: Quality of Housing</b>			
home conditions to child's well-being.	but may be damp, but the carer addresses this.	and there is offensive odour. There are inadequate amenities such as beds and bedding, unhygienic toilet, lack of clean washing facilities and the whole environment is chaotic.	lack of essential amenities such as a working toilet, showering/bathing facilities, inappropriate and soiled bed and bedding and poor facilities for the preparation of food.
	Carer recognises the importance of the home conditions to the child's sense of well-being, but is hampered by personal circumstances.	The accommodation smells of damp and there is evidence of mould.	Faeces or other harmful substances are visible, and house smells.
			The accommodation smells strongly of damp and there is extensive mould which is untreated and the carer is hostile to advice about the impact of the home circumstances on child's well-being.

<b>PHYSICAL CARE: Stability of Housing</b>			
Child has stable home environment without too many moves (unless necessary).	Child has a reasonably stable home environment, but has experienced house moves/ new adults in the family home.	Child does not have a stable home environment, and has either experienced lots of moves and/or lots of adults coming in and out of the home for periods of time.	Child experiences lots of moves, staying with relatives or friends at short notice (often in circumstances of overcrowding leading to children sleeping in unsuitable circumstances).
Carer understands the importance of	Carer recognises that this could impact on	Carer does not accept the importance of	The home has a number of adults

<b>PHYSICAL CARE: Stability of Housing</b>			
stability for child.	child, but the carer's personal circumstances occasionally impact on this.	stability for child.	coming and going.
			Child does not always know these adults who stay over. Carer is hostile about being told about the impact on child of instability.

<b>PHYSICAL CARE: Child's clothing</b>			
Child has clothing which is clean and fits appropriately.	Child has clothes which are appropriate, but are sometimes poorly fitting, unclean and crumpled.	Child does not have a stable home environment, and child has clothing which is dirty and crumpled, in a poor state of repair and not well fitting. The child lacks appropriate clothes for the weather and does not have sufficient clothing to allow for regular washing.	Child has clothes which are ill fitting and smelly. There is evidence that the clothes are not being washed. The clothes are usually unsuitable for the weather.
Child is dressed appropriately for the weather and carers are aware of the importance of appropriate clothes for the child in an age appropriate way.	The carer gives consideration to the appropriateness of clothes to meet the needs of the child in an age appropriate way, but their own personal circumstances can get in the way.	Carer(s) are indifferent to the importance of appropriate clothes for the child in an age appropriate way.	Child may sleep in day clothes and is not provided with clean clothes when they are soiled.
	Carer understands the potential for bullying and social isolation and is able to take action to		The carer is hostile to advice about the need for appropriate clothes for the well-being of the child.

<b>PHYSICAL CARE: Child's clothing</b>			
	address this.		

<b>PHYSICAL CARE: Animals</b>			
Animals are well cared for and do not present a danger to children or adults.	Animals look reasonably well cared for, but contribute to a sense of chaos in the house.	Animals not always well cared for or ailments treated.	Animals not well cared for and presence of faeces and urine in living areas.
Children are encouraged to behave appropriately towards animals.	Animals present no dangers to children or adults and any mistreating of animals is addressed.	Presence of faeces or urine from animals not treated appropriately and animals not well trained.	Animals dangerous and chaotically looked after.
Young children are not left unsupervised with animals.	Animals occasionally left unsupervised with young children.	The mistreatment of animals by adults or children is not addressed.	Carers do not address the ill treatment of animals by adults or children.
		Young children often left with animals unsupervised.	Parents do not accept they should supervise young children with animals and may blame the child for the animal's behaviour.

<b>PHYSICAL CARE: Hygiene</b>			
The child is clean and is either given a bath/washed daily or encouraged to do so in an age appropriate way.	The child is reasonably clean, but the carer does not bath/wash the child regularly and/or the child is not consistently encouraged to do so in an age appropriate way.	The child looks unclean and is only occasionally bathed/washed or encouraged to do so in an age appropriate way.	The child looks dirty, and is not bathed or washed or encouraged to do.
The child is encouraged to brush their teeth and head lice, skin complaints	The child does not always clean their teeth, and head lice and skin conditions	There is evidence that the child does not brush their teeth, and that head lice and	The child does not brush teeth. Head lice and skin conditions are not treated and

<b>PHYSICAL CARE: Hygiene</b>			
etc. are treated appropriately.	etc. are treated in an inconsistent way.	skin conditions etc. are not treated appropriately.	become chronic.
Nappy rash is treated appropriately.	Nappy rash is a problem, but parent treats if given encouragement and advice.	Carer does not address concerns about nappy rash and is indifferent to concerns expressed by others.	Carer does not address concerns about nappy rash and is hostile to concerns expressed by others.
Carers take an interest in the child's appearance		Carers do not take an interest in child's appearance and do not acknowledge the importance of hygiene to the child's well-being	The carer is hostile to concerns expressed by others about the child's lack of hygiene.

<b>HEALTH: Seeking Advice and Intervention</b>			
Advice sought from professionals/ experienced adults on matters of concern about child's health.	Advice is sought about illnesses, but this is occasionally delayed or poorly managed as a result of carer difficulties.	The carer does not routinely seek advice about childhood illnesses but does when concerns are serious or when prompted by others.	Carer does not attend to childhood illnesses, unless severe or in an emergency.
Appointments are made and consistently attended.	Carer understands the importance of routine care such as optical/dental but is not always consistent in keeping routine appointments.	Dental care and optical care are not routinely attended. Immunisations are not up to date, but carer will allow access to children if home visits are carried out.	Childhood illnesses allowed to deteriorate before advice/care is sought.
Preventative care is carried out such as dental/optical and all immunisations are up to date.	Immunisations are delayed, but eventually completed.	Carer does not ensure the child completes any agreed programme of medication or treatment and is indifferent to the impact on child's well-being.	Carer hostile to advice from others (professionals and family members) to seek medical advice.

<b>HEALTH: Seeking Advice and Intervention</b>			
Carer ensures child completes any agreed programme of medication or treatment.	Carer is inconsistent about ensuring that the child completes any agreed programme of medication or treatment, but does recognise the importance to the child, but personal circumstances can get in the way.		Routine appointments such as dental and optical not attended to, immunisations not up to date, even if a home appointment is offered.
			Carer does not ensure that the child completes any agreed programme of medication or treatment and is hostile to advice about this from others, and does not recognise likely impact on child.

<b>HEALTH: Disability and illness</b>			
Carer positive about child's identity and values him/her.	Carer does not always value child and allows issues of disability to impact on feelings towards the child.	Carer shows anger and frustration at child's disability. Often blaming the child and not recognising identity.	Carer does not recognise child's identity and is negative about child as a result of the disability.
Carer complies with needs relating to child's disability.	Carer is inconsistent in their compliance with needs relating to child's disability, but does recognise the importance to the child, but personal circumstances get in the way.	Carer does not ensure compliance with needs relating to child's disability, and there is significant minimisation of child's health needs.	Carer does not ensure compliance with needs relating to child's disability, which leads to deterioration of the child's well-being.
Carer is proactive in seeking appointments and advice and	Caregiver accepts advice and support but is not proactive in	The carer does not seek or accept advice and support around	Carer hostile when instructed to seek help for the child, and

<b>HEALTH: Disability and illness</b>			
advocating for the child's well-being	seeking advice and support around the child's needs.	the child's needs, and is indifferent to the impact on the child.	is actively hostile to any advice or support around child's disability.

<b>HEALTH: Safe sleeping arrangements and co-sleeping for babies</b>			
Carer has information on safe sleeping and follows the guidelines.	Carer has information on safe sleeping, but does not always follow guidelines, so bedding, temperature or smoking may be a little chaotic and carer may not be aware of sleeping position of the baby. (Be aware this raises risk of cot death).	Carer unaware of safe sleeping guidelines, even if they have been provided.	Carer indifferent or hostile about safe sleeping guidance. Sees it as interference and does not take account of beds and bedding, room temperature, sleeping position of the baby and adults smoke in the household. (Be aware this raises risk of cot death).
There is suitable bedding and carers have an awareness of the importance of the room temperature, sleeping position of the baby and carer does not smoke in household.	Carer aware of the dangers of co-sleeping and recognises the dangers of drugs and alcohol by the carer on safe co-sleeping, but this is sometimes inconsistently observed.	Carer ignores advice about beds and bedding, room temperature, sleeping position of the baby and smoking. (Be aware this raises risk of cot death).	Carer hostile to advice about safe sleeping and the impact of carer's drug and alcohol use on safe co-sleeping for the baby.
Carer aware of guidance around safe co-sleeping and recognises the importance of the impact of alcohol and drugs on safe co-sleeping.	Sleeping arrangements for children can be a little chaotic.	Carer does not recognise the importance of safe co-sleeping or the impact of carer's alcohol /drug use on safety.	Sleeping arrangements for children are not suitable and carer is hostile to advice regarding this.
There are appropriate sleeping arrangements for children.		Sleeping arrangements for children are not suitable and carer is indifferent to advice regarding this.	Carer not concerned about impact on child or risks associated with this, such as witnessing adult sexual behaviour.

<b>HEALTH: Safe sleeping arrangements and co-sleeping for babies</b>			
		Carer not concerned about impact on child.	

<b>SAFETY &amp; SUPERVISION: Safety awareness and features including internet safety</b>			
Carer aware of safety issues and there is evidence of safety equipment use and maintenance.	Carer is aware of safety issues, but is inconsistent in use and maintenance of safety equipment, and allows personal circumstances to get in the way of consistency.	The carer does not recognise dangers to child and there is a lack of safety equipment, and evidence of daily dangers to the child.	Carer does not recognise dangers to the child's safety and hostile to advice regarding this, does not recognise the importance to the child, and can hold child responsible for accidents and injuries.
Carer has considered internet safety and supervises child at an age appropriate level. Carer has actively provided advice on internet safety.	Carer inconsistently monitors internet usage but will intervene when concerns are obvious.	Carer indifferent to advice about this and does not recognise or acknowledge the impact on the child. The carer does not seek or accept advice and support around the child's needs, and is indifferent to the impact on the child.	
		Carer indifferent to internet safety and reluctant to take advice.	Carer is aware that child is at risk through their internet usage and does nothing to intervene.

<b>SAFETY &amp; SUPERVISION: Supervision of the child</b>			
Appropriate supervision is provided in line with age and stage of development.	Variable supervision is provided both indoors and outdoors, but carer does intervene where there is imminent danger.	There is very little supervision indoors or outdoors and carer does not always respond after accidents.	Complete lack of supervision.
Carer recognises the	Carer does not always	There is a lack of	Young children

**SAFETY & SUPERVISION: Supervision of the child**

importance of appropriate supervision to child's well-being but allows age appropriate positive risk taking.	know where child is and inconsistent awareness of safety issues when child away from home.	concern about where child is or who they are with and the carer is inconsistently concerned about lack of return home or late nights.	contained in car seats/pushchairs for long periods of time.
Carer promotes age appropriate independence skills.	Shows concern about when child should be home.	Carer indifferent to importance of supervision and to advice regarding this from others.	The carers are indifferent to whereabouts of child, and often do not know where child is or who they are with, and are oblivious to any dangers.
	Shows concern about when child should be home.	Carer indifferent to risk taking behaviour and allows developmentally inappropriate independence seeking by the child.	There are no boundaries about when to come home or late nights.
	Carer allows positive risk taking but this is not always age appropriate.		Carer hostile about advice from others regarding appropriate supervision and does not recognise the potential impact on children's well-being.
	Carer is inconsistent in promoting age appropriate independence skills.		Carer encourages risky behaviour in child and when made aware of risk taking behaviour does nothing to address it.

**SAFETY & SUPERVISION: Handling of baby / response to baby**

Carer responds appropriately to the baby's needs and is careful whilst handling and laying	The carer is not always consistent in their responses to the baby's needs, because their own	Carer does not recognise the importance of responding consistently to the	Carer does not respond to the needs of the baby and only addresses issues when carer chooses

1) Child focused care giving

2) Adult focused care giving

3) Child's needs are secondary to adults'

4) Child's needs are not considered

**SAFETY & SUPERVISION: Handling of baby / response to baby**

the baby down, frequently checks if unattended.	circumstances get in the way. Carer is a bit precarious in handling and is inconsistent in supervision.	needs of the baby. Handling is precarious and baby is left unattended (e.g. bottle left in the mouth).	to do so.
Carer spends time with baby, cooing and smiling, holding and behaving warmly.	Carer spends some time with the baby, cooing and smiling, but is led by baby's moods, and so responds negatively if baby unresponsive.	Carer does not spend time with baby, cooing or smiling, and does not recognise importance of comforting baby when distressed.	There is dangerous handling and the baby is left dangerously unattended.
			The baby is strapped into a car seat or some other piece of equipment for long periods and lacks adult attention and contact.
			Carer hostile to advice to pick baby up, and provide comfort and attention. Carer does not recognise importance to baby.

**SAFETY & SUPERVISION: Care by other adults**

Child is left in care of a vetted adult.	Child 0-9-year-old is sometimes left with a child age 10-13 or a person known to be unsuitable.	Child 0-7 year old is left with an 8-10 year old or an unsuitable person.	Child 0-7-year-old is left alone or in the company of young child or an unsuitable person.
Never in sole care of an under 16.	Parents unsure of child's whereabouts.	Child found wandering and/or locked out.	Child often found wandering and/or locked out.
Parent/child always aware of each other's whereabouts.	Carer inconsistent in raising the importance of a child keeping themselves safe from others and provides some advice	Carer does not raise awareness of the importance of child keeping themselves safe from others and provides no advice	Carer does not provide any advice about keeping safe, and may put adult dangers in the way of the child.

<b>SAFETY &amp; SUPERVISION: Care by other adults</b>			
	and support.	and support.	
Out of necessity a child aged 1-12 is left with a young person under 14 who is familiar and has no significant problem for no longer than necessary as an isolated incident.	Carer aware of the importance of safe care, but sometimes is inconsistent because of own personal circumstances.	Carer is indifferent to the importance of safe care of the child and leaves the child with unsuitable or potentially harmful adults and does not recognise the potential risks to the child.	Carer hostile to advice or professional challenge about giving safe care and impact of children being left with unsuitable and/or unsuitable or dangerous adults.

<b>SAFETY &amp; SUPERVISION: Responding to adolescents</b>			
The adolescent's needs are fully considered with appropriate adult care.	The carer is aware of the adolescent's needs but is inconsistent in responding to them.	The carer does not consistently respond to the adolescent's needs and recognises risky behaviour but does not always respond appropriately.	The adolescent's needs are not considered and there is not enough appropriate adult care.
Where risky behaviour occurs it is identified and responded to appropriately by the carer.	The carer is aware that the adolescent needs appropriate care but is inconsistent in providing it.		The carer does not recognise that the adolescent is still in need of guidance with protection from risky behaviour i.e. lack of awareness of the adolescent's whereabouts for long periods of time.
	Where risky behaviour occurs the carer responds inconsistently to it.		The carer does not have the capacity to be alert to and monitor the adolescent moods for example recognising depression which could lead to self-harm.

<b>SAFETY &amp; SUPERVISION: Traffic awareness &amp; in-car safety</b>			
Baby/Infant is well secured in pram/pushchair.	Baby/infant not always secured in pushchair and 3- 5-year-old not fully supervised. 7yrs onwards are allowed to cross with another young child alone and 8-year-old crosses regardless of suitability.	Baby/infant not secured in pushchair and 3- 5-year-old dragged along with annoyance or left to follow behind alone, with supervision.	Babies/infants are unsecured in pram/pushchair and carer is careless with pram.
Where a toddler is walking their hand is held safely. 3 – 5 years old are allowed to walk without holding hands, but are close and in vision. 5- 8 year olds are allowed to cross with 13+ year old.	Child given some guidance about traffic skills.	Under 7s onwards are allowed to cross road alone.	There is a lack of supervision around traffic and an unconcerned attitude.
Child taught traffic skills as per developmental needs.		Child not taught traffic skills.	Lacks understanding of why teaching traffic skills might be important for the child

<b>LOVE AND CARE: Parent/carer's attitude to child, warmth and care</b>			
Carer talks warmly about the child and is able to praise and give appropriate emotional reward.	Carer talks kindly about the child and is positive about achievements most of the time but allows their own difficulties to impact.	Carer does not speak warmly about the child and is indifferent to the child's achievements.	Carer speaks coldly and harshly about child and does not provide any reward or praise and is ridiculing of the child when others praise.
The carer values the child's cultural identity and seeks to ensure child develops a positive sense of self.	Carer recognises that praise and reward are important but is inconsistent in this.	Carer does not provide praise or reward and is dismissive of praise from others.	Carer is hostile to advice about the importance of praise and reward to the child.

<b>LOVE AND CARE: Parent/carer's attitude to child, warmth and care</b>			
Carer responds appropriately to child's needs for physical care and positive interaction.	Carer recognises child's cultural identity and is aware of the importance of ensuring child develops a positive sense of self, but sometimes allows personal circumstances to impact on this.	Carer does not recognise the child's cultural identity and is indifferent to the importance of ensuring that the child develops a positive sense of self.	Carer hostile to the child's cultural identity and to the importance of ensuring that the child develops a positive sense of self.
The emotional response of the carer is one of warmth.	Child is main initiator of physical interaction with carer who responds inconsistently or passively to these overtures.	Carer seldom initiates interactions with the child and carer is indifferent if child attempts to engage for pleasure, or seek physical closeness.	Carer does not show any warmth or physical affection to the child and responds negatively to overtures for warmth and care.
Child is listened to and carer responds appropriately.	Child not always listened to and carer angry if child seeks comfort through negative emotions such as crying.	Emotional response is sometimes brisk or flat and lacks warmth.	Responds aggressively or dismissively if child distressed or hurt.
Child is happy to seek physical contact and care. Carer responds appropriately if child distressed or hurt.	Does not always respond appropriately if child distressed or hurt.	Can respond aggressively or dismissively if child distressed or hurt.	Carers will respond to incidents of harm if they consider themselves to be at risk of involvement with the authorities.
Carer understands the importance of consistent demonstrations of love and care.	Carer understands the demonstrations of love and care but own circumstances and difficulties sometimes get into the way.	Carer indifferent to advice about the importance of love and care to the child.	The emotional response of carers is harsh, critical and lacking in any warmth.
			Carer hostile to advice about the importance of responding appropriately to the child.

<b>LOVE AND CARE: Boundaries</b>			
Carer provides consistent boundaries and ensures child understands how to behave and to understand the importance of set limits.	Carer provides inconsistent boundaries and uses mild physical and moderate other sanctions.	Carer provides few boundaries, and is harsh and critical when responding to the child's behaviour and uses physical sanctions and severe other sanctions.	Carer provides no boundaries for the child and treats the child harshly and cruelly, when responding to their behaviour.
Child is disciplined appropriately with the intention of teaching proactively.	The carer recognises the importance of setting boundaries for the child, but is inconsistent because of own personal circumstances or difficulties.	Carer can hold child responsible for their behaviour.	Carer uses physical chastisement and harsh other methods of discipline.
		Carer indifferent to advice about the need for more appropriate methods of disciplining.	Carer hostile to advice about appropriate methods of disciplining.

<b>LOVE AND CARE: Adult arguments and violence</b>			
Carers do not argue aggressively and are not physically abusive in front of the children.	Carers sometimes argue aggressively in front of children, but there is no physical abuse of either party.	Carers frequently argue aggressively in front of children and this leads to violence.	Carers argue aggressively frequently in front of the children and this leads to frequent physical violence.
Carer has a good understanding of the impact of arguments and anger on children and is sensitive to this.	Carer recognizes the impact of severe arguments on the child's well-being but personal circumstances sometimes get in the way.	There is a lack of awareness and understanding of the impact of the violence on children and carers are indifferent to advice regarding this.	There is indifference to the impact of the violence on children and carers are hostile to advice about the impact on children.

<b>LOVE AND CARE: Young carers</b>			
Child contributes to household's tasks as would be expected for age and stage of development.	Child has some additional responsibilities within household, but these are manageable for age and stage of development and do not interfere with child's education and interfere minimally with leisure/sporting activities.	Child has onerous caring responsibilities that interfere with education and leisure activities.	Child has caring responsibilities which are inappropriate and interfere directly with child's education/leisure opportunities.
Does not take on additional caring responsibilities.	Carer recognises that the child should not be engaged in inappropriate caring responsibilities but is inconsistent in their response.	Carer indifferent to impact on child.	This may include age inappropriate tasks, and /or intimate care.
Carer recognises the importance of appropriateness regarding caring responsibilities.			The impact on the child's well-being is not understood or acknowledged.
			Carer is hostile to advice about the inappropriateness of caring responsibilities.

<b>LOVE AND CARE: Positive values</b>			
Carer encourages child to have positive values, to understand right from wrong, be respectful to others and show kindness and helpfulness.	Carer inconsistent in helping child to have positive values, to understand right from wrong, be respectful to others and show kindness and helpfulness.	Carer does not teach child positive values. Is indifferent to issues of right and wrong, kindness and respect to others.	Carer actively encourages negative values in child and has at times condoned anti-social behaviour.
Carer understands importance to child's development.	Carer aware of importance to child's development,	Carer does not understand importance to	Carer indifferent to the impact on child's development.

<b>LOVE AND CARE: Positive values</b>			
	but not always able to impose framework.	child's development.	
This includes an awareness of smoking, underage drinking and drug misuse as well as early sexual relationships.	Carer has variable awareness of smoking, underage drinking and drug misuse as well as early sexual relationships.	Carer gives little advice about smoking, underage drinking and drug misuse as well as early sexual relationships.	Carer indifferent to smoking, underage drinking and drug misuse, and early sexual relationships. No advice given, and may, at times, have encouraged some of these activities.
Carer gives clear advice and support.	Carer gives some advice and support.	Carer does not monitor the watching of inappropriate materials or playing inappropriate games and is indifferent about the impact on the child.	Carer(s) allows child(ren) to watch inappropriate TV/film material and inappropriate computer games.
Carer ensures child does not watch inappropriate films/TV or play with computer games which are inappropriate for child's age and stage of development.	Carer aware of need to monitor child watching inappropriate material and playing inappropriate computer games, but is inconsistent in monitoring because of own personal difficulties and circumstances.		Is hostile to advice about inappropriateness and to the impact on child's well-being.

<b>LOVE AND CARE: Adult behaviour</b>			
Carer does not talk about feelings of depression/low mood in front of the children and is aware of potential impact.	Carer does discuss feelings of depression and low mood, but does not discuss suicide and is aware of the impact of parental mood on children,	Carer talks about depression and suicide in front of child and is unaware of potential impact on child.	Caregiver has attempted suicide in front of child.

<b>LOVE AND CARE: Adult behaviour</b>			
	but their own mood or circumstances means there is inconsistency in awareness of this.		
Carer does not misuse drugs or alcohol.	Carer uses drugs and alcohol, but ensures that this does not impact on child.	Carer indifferent to advice about the importance of not talking about this issue.	Carer can hold the child responsible for feelings of depression and is open with the child and/or others about this.
		Carer misuses drugs and/or alcohol, and is not aware of impact on child.	Carer is hostile to advice focused on stopping this behaviour and carer does not recognise the impact on the child.
			Carer misuses drugs and alcohol and does not ensure that this does not impact on the child and this impacts on safety and well-being.
			Carer hostile to advice about this.

<b>LOVE AND CARE: Substance misuse</b>			
Alcohol and drugs are stored safely, if in the home.	The carer believes it is normal for children to be exposed to regular alcohol and substance use.	The carer lacks awareness of the impact their substance use has on their child and is inconsistent in their engagement with specialist agencies.	The carer holds the child responsible for their use and blames their continual use on the child
The carer models low consumption or does not drink or use in front of the child. The carer's use does not impact on the child in terms of carer's emotional availability and provides	The carer maintains boundaries and routines but these are changed and/or adapted to accommodate use at times.	The carer's use leads to an inconsistency in caring and the child takes on inappropriate responsibilities at home.	The carer significantly minimises and is hostile to advice around their use or refuses to acknowledge concerns.

<b>LOVE AND CARE: Substance misuse</b>			
consistency of care or they have physical ability to care or respond to the child.			
The carer is able to respond to emergency situations should they arise appropriately.	The carer understands the importance of hygiene, emotional and physical care of their child and arranges for additional support when unable to fully provide for the child.	The carer needs support in order to manage their use during pregnancy and lacks awareness on the impact this may have on their baby in terms of immediate and medium to long term future.	The carer involves the child in their using behaviour (i.e. asking the child to get the substances or prepare the substances).
The carer talks appropriately about substances to the child, being aware of the child's development, age and understanding.	Finances are affected but the child's needs are generally met.	Substances can be accessed by the child.	The carer refuses antenatal care or does not attend care offered.
The carer is aware of the impacts of substances on an unborn child and follows recommendations regarding the child's well-being.	The mood of the carer can be irritable or distant at times. The carer is aware of the impact of substances on an unborn child but inconsistently follows recommendations regarding the child's well-being.	The child's access to appropriate medical or dental care is delayed and education is disrupted. The finances are affected and the carer's mood is unpredictable.	The carer cannot respond to the child's needs or shows little awareness of the child's well-being (i.e. attending school).
Alcohol and substances do not impact on the family finances.			There is an absence of supportive family members or a social network.
The child's needs are fully met and a wide network of family and supportive			The child is exposed to abusive or frightening behaviour of either the carer or other adults (i.e.

<b>LOVE AND CARE: Substance misuse</b>			
others are involved.			delusions/hallucinations).
			Education is frequently disrupted.
			The carer does not recognise and respond to the child's concerns and worries about the carer's circumstances.

<b>STIMULATION &amp; EDUCATION: Unborn</b>			
The mother acknowledges the pregnancy and seeks care as soon as the pregnancy is confirmed.	The mother attends antenatal clinic and prepares for the birth of her baby, but she is acutely aware of her mental health or substance misuse problems which could negatively impact on her unborn baby.	The mother is unaware of the impact her mental health and/or substance misuse problems have on the unborn child.	The mother does not attend any antenatal clinic appointments; she ignores medical advice during the pregnancy.
The mother attends all her antenatal appointments and seeks medical advice if there is a perceived problem. She prepares for the birth of the baby and has the appropriate clothing, equipment and cot in time.	The father is inconsistently available and is ambivalent to the birth of the child.	The father may pose a risk to the unborn child but the mother is reticent in discussing that risk with professionals.	She has nothing prepared for the birth of her baby.
The father is identified and is actively involved in preparation for the arrival of the infant.	The parental relationship is showing signs of instability that may relate to domestic abuse.	Domestic abuse is present in the relationship and has been assessed and medium to low risk. The mother is ambivalent to professional help.	She engages in activities that could hinder the development, safety and welfare of the unborn child.
The parental relationship is stable and there is no	The mother is a single parent and has inconsistent support	The mother, if a single parent, has no obvious support	The parental relationship has high levels of domestic

<b>STIMULATION &amp; EDUCATION: Unborn</b>			
evidence of domestic abuse.	networks.	networks and is reluctant to seek support.	abuse which pose significant harm to the unborn child.
If mother is a single parent she has a support network to call upon.			The mother, if a single parent, has no support networks and where there are potential networks she is hostile to their involvement.

<b>STIMULATION &amp; EDUCATION: 0-2 years</b>			
The child is well stimulated and the carer is aware of the importance of this.	There is inadequate stimulation and the baby is left alone at times because of carer's personal circumstances and this leads to inconsistent interaction.	The carer provides the baby with little stimulation and the baby is left alone unless making serious and noisy demands.	The carer does not provide stimulation and the baby's mobility is restricted (confined in chair/pram).
	Carer is aware of the importance of stimulation, but is inconsistent in response.		Carer gets angry at the demands made by the baby.
			Carer hostile to advice about the importance of stimulation and paying attention to the baby's needs for attention and physical care.

<b>STIMULATION &amp; EDUCATION: 2-5 years</b>			
The child receives appropriate stimulation such as carer talking to the child in an interactive	The carer provides adequate stimulation. Carer's own circumstances sometimes get in the	The carer provides little stimulation and does not see the importance of this for the child.	No stimulation is provided and carer hostile to child's needs or advice from others about the

3) Child's needs are secondary to adults'

4) Child's needs are not considered

**STIMULATION & EDUCATION: 2-5 years**

way, as well as reading stories and the carer playing with the child.	way because there are many other demands made on the carer's time and there is a struggle to prioritise. However, the carer does understand the importance of stimulation for the child's well-being.		importance of stimulation.
Carer provides all toys that are necessary. Finds a way even if things are unaffordable (uniform, sports equipment, books etc.).	The child has essential toys and the carer makes an effort to ensure appropriate access to toys even if things are unaffordable, but sometimes struggles.	The child lacks essential toys, and this is not because of financial issues, but a lack of interest or recognition of the need.	The child has no toys and carer may believe that child does not deserve presents. No toys, unless provided by other sources, gifts or grants and these are not well kept.
Outings: Carer takes child to child-centred places locally such as park, or encourages child in an age appropriate way to make use of local resources.	Outings: Child accompanies carer wherever carer decides, usually child friendly places, but sometimes child's time taken up with adult outings because of carer's needs.	Carer allows presents for the child but the child is not encouraged to care for toys.	No outings for the child, may play in the street but carer goes out locally e.g. to pub with friends.
		Child may go on adult oriented trips, but these are not child-centred or child left to make their own arrangements to play outdoors in neighbourhood.	Child prevented from going on outings with friends or school.
		Child has responsibilities in the house that prevents opportunities for outings.

**STIMULATION & EDUCATION: School**

Carer takes an active interest in schooling and support at home; attendance is regular.	Carer maintains schooling but there is not always support at home.	Carer makes little effort to maintain schooling.	Carer hostile about education, and provides no support and does not encourage child to see any aspect positively.
Carer engages well with school or nursery and does not sanction missed days unless necessary.	Carer struggles to link with school, and their own difficulties and circumstances can get in the way.	There is a lack of engagement with school. No interest in school or homework.	Total lack of engagement and no support for any aspect of school such as homework, outings etc.
Carer encourages child to see school as important.	Can sanction days off where not necessary.	Carer does not recognise child's need for education and is collusive about child not seeing it as important.	
Interested in school and support for homework.	Carer understands the importance of school, but is inconsistent with this and there is also inconsistency in support for homework.		

**STIMULATION & EDUCATION: Sport and Leisure**

Carer encourages child to engage in sports and leisure, if affordable.	Carer understands that after school activities and engaging in sports or child's interests is important, but is inconsistent in supporting this, because own circumstances get in the way.	Child makes use of sport through own effort; carer not motivated and not interested in ensuring child has equipment where affordable.	Carer does not encourage child to take part in activities, and may be active in preventing this.

negotiated with agencies/school on behalf of child.	inconsistent in promoting a positive approach.	the child and is indifferent to wishes of child or advice from others about the importance of sports/leisure activities, even if child is good at it.	engaged in unsafe/unhealthy pursuits.
Carer understands the importance of this for child's well-being			Carer hostile to child's desire to take part or advice from others about the importance of sports/leisure activities, even if child is good at it.
Recognises when child is good at something and ensures they are able to pursue it.			

<b>STIMULATION &amp; EDUCATION: Friendships</b>			
This is supported and carer is aware of who child is friends with.	Carer aware of need for friends, does not always promote, but ensures friends are maintained and supported through opportunities for play etc. Aware of importance to child.	Child finds own friendships, no help from carer unless reported to be bullied.	Carer hostile to friendships and shows no interest or support.
Aware of safety issues and concerns.		Does not understand importance of friendships.	Does not understand importance to child.
Fully aware of the importance of friendships for the child.			

<b>STIMULATION &amp; EDUCATION: Addressing Bullying</b>			
Carer alert to child being bullied and addresses immediately.	Carer aware of likelihood of bullying and does intervene when child asks.	Carer unaware of child being bullied and does not intervene.	Carer indifferent to child being bullied.

<b>PARENTAL MOTIVATION FOR CHANGE</b>			
Carer is concerned about children's welfare; wants to meet their physical, social, and emotional needs to the extent he/she understands them.	Carer seems concerned about children's welfare and claims he/she wants to meet their needs, but has problems with own pressing circumstances and needs.	Carer is not concerned enough about children's needs to change or address competing demands on their time and money. This leads to some of the children's needs not being met.	Carer rejects the parental role and takes a hostile attitude toward childcare responsibilities.
Carer is determined to act in best interests of children.	Professed concern is often not translated into effective action, but carer expresses regrets about own difficulties dominating.	Carer does not have the right 'priorities' when it comes to child care; may take an indifferent attitude.	Carer does not see that they have a responsibility to the child, and can often see the child as totally responsible for themselves or believe that any harm that befalls the child is the child's own fault and that there is something about the child that deserves ill treatment and hostile parenting.
Has realistic confidence that he/she can overcome problems and is willing to ask for help when needed. Is prepared to make sacrifices for children.	Would like to change, but finds it hard. May be disorganised, does not take enough time, or pays insufficient attention; may misread 'signals' from children; may exercise poor judgement.	There is lack of interest in the children and in their welfare and development.	May seek to give up the responsibility for children.
